3 **1-05 Archived Resolution**

4
5 **SUPPORT FOR CONTINUED**
6 **REGIONAL INTERNATIONAL COOPERATION**

7
8 There are vast untapped energy resources located in the Pacific
9 Northwest states, the provinces of British Columbia and Alberta, the
10 Yukon and Northwest Territories and the State of Alaska.

11 To date, the development of energy resources in this region has
12 been symbolized by a characteristic of cooperation in both planning and
13 development.

14 While political boundaries are arbitrary, energy knows no
15 boundaries. Energy needs dictate that the energy potential of this vast
16 region be integrated to benefit all sections of this region.

17 Therefore, we urge a continued spirit of harmony among the states,
18 provinces and territories, between the United States and Canadian
19 governments and between the people of both nations to be sure this
20 region of North America meets the energy requirements of the future in a
21 continued atmosphere of regional international cooperation.
