ENGINEERING & OPERATIONS CONFERENCE AND TRADE SHOW

APRIL 13–16, 2026 | PORTLAND, OREGON

BUILDING OUR LEGACY

WELCOME FROM THE CONFERENCE CHAIR

Thank you for attending the Engineering & Operations Conference and Trade Show! Guided by the theme, Building Our Legacy, this year's E&O is an opportunity to invest in your growth so you can help shape the future of public power.

The 2026 E&O features a record-number 26 concurrent educational sessions, eight interactive roundtable discussions, and four general sessions. In the NWPPA Events app, concurrent sessions are now tagged with multiple topic areas, giving you a better sense of the content covered and allowing you to tailor your learning experience more effectively. You will also experience our largest trade show yet, featuring more than 250 booths and all-new lounge space for connecting, working, and recharging.

You may notice Thursday's schedule has been refreshed, with the trade show held in the morning, a hosted hot-buffet lunch, afternoon concurrent sessions, and a new interactive closing general session. As always, please join us that evening for the chair's reception, awards banquet, and entertainment.

Here's to a week of learning, connection, and looking ahead together. Let's get started!

(Oregon Ballroom)

Welcome
Welcome remarks by: Kurt Miller, CEO and Executive Director, NWPPA; and Arnie Sorrell, 2026 E&O Conference Chair, Mission Valley Power

Opening keynote address – How to Build Trust and Expertise With After-Action Reviews
Speaker: Jake Mazulewicz, Ph.D., Director, JMA Human Reliability Strategies

As a 19-year-old firefighter, Jake Mazulewicz experienced his first after-action review (AAR), changing his life forever. Today, he draws on his experience as a firefighter, EMT, military paratrooper, and electric utility leader to help teams in high-hazard industries prevent costly errors. In this fast-paced keynote, you'll discover how AARs can boost team effectiveness by up to 25%. Best of all, you'll practice a real-world AAR during the session and leave ready to lead these important conversations with your own team.

10–11:10 a.m. — ROUNDTABLES

From Slide Rule to AI (Engineering) (B110); Material Matters (B113); Operational Challenges (B116); Oil Spill Response Roles and Responsibilities (B119)
