

IN-HOUSE TRAINING PROGRAMS

NWPPA

Our in-house training provides a comprehensive and economical way to provide the educational opportunity you're looking for.

BRING NWPPA TO YOU!

NWPPA is here to talk with you about your educational goals, discuss classes that can best suit your utility, and work with you to design programs.

NWPPA can partner with your utility to find the best instructor and course materials. You then confirm course dates and the location, and your team moves closer to reaching their educational goals.

Contact the NWPPA Learning and Workforce Development team and they will work together to bring high-quality, affordable educational opportunities to you.

BENEFITS OF IN-HOUSE TRAINING

NWPPA offers a wide variety of courses that can be customized and brought to your location.

In-house education is a wonderful way to:

- Save time and expenses by training several employees at once
- Reduce travel costs and time away from the office
- Create a shared learning experience that fosters teamwork through a consistent learning environment

In-house training provides an opportunity to work with expert instructors with direct experience to public power utilities; they can help you customize a program to meet your specific educational goals.

Our most popular in-houses are:

- Leadership Skills Series
- Foreman Leadership
- Electric Utility System Operations (EUSO)
- HR compliance training
- Personal Protective Bonding and Grounding

See our training catalog for more options at www.nwppa.org/catalog, or contact Jenny Keesey at jenny@nwppa.org or (360) 816-1458.

The NWPPA logo consists of the letters "NWPPA" in a bold, white, sans-serif font, centered within a dark blue rectangular background.
