

**NORTHWEST PUBLIC POWER ASSOCIATION**

2019 Engineering & Operations Conference and Trade Show • Spokane, Wash.

**INVITATION TO DISPLAY AT THE INDUSTRY SHOWCASE**

NWPPA is seeking up to 16 E&O exhibitors to display one of their latest products, technologies, or services during our Industry Showcase on Wednesday, April 10, from 7:30–8:30 a.m.

The Industry Showcase includes the morning refreshments for E&O attendees in the Spokane Convention Center. The Showcase will give attendees a taste of what they will see in the trade show. This is a special, no-charge early opportunity for selected exhibitors to display and talk one on one with attendees before the trade show opens.

Space is limited and our E&O judges are selective, so complete your application now! Applications are due by January 11, 2019.

Using the form below, describe for our judges the one product or service that is the latest innovation that your organization has to offer and one that attendees must see. (The display of product lines will not be accepted.)

Selected exhibitors will be contacted in February 2019. All presentation materials and products must fit onto a 3' x 6' table. No equipment, product, or promotional material is allowed on the floor around the display table for safety reasons. Large projection screens and audio systems may not be used.

If you have questions, please call Taryn Johnson at (360) 816-1446.
